General

Hernan M, Robins J. *Causal Inference*. Forthcoming. First chapters available at <http://www.hsph.harvard.edu/faculty/miguel-hernan/causal-inference-book/>

Pearl J. (2000). *Causality: Models, Reasoning and Inference*. Cambridge: Cambridge University Press.

Association vs causation, Estimation of causal effects

Dawid AP. (2000). Causal inference without counterfactuals (with discussion). *Journal of the American Statistical Association*, **95**(450), 407-448.

Hernan M. (2004). A definition of causal effect for epidemiological studies. *Journal of Epidemiology and Community Health* **58**, 265-271.

Hernan M. (2005). Invited commentary: Hypothetical interventions to define causal effects: afterthought or prerequisite? *American Journal of Epidemiology* **162**, 618-620.

Robins JM, Hernan MA. (2006). Estimating causal effects from epidemiological data. *Journal of Epidemiology and Community Health* **60**, 578-586.

Directed Acyclic Graphs

Hernan M, Hernandez-Diaz S, Werler M, Mitchell A. (2002). Causal knowledge as a prerequisite for confounding evaluation. *American Journal of Epidemiology* **155** 176-184.

Hernan M, Hernandez-Diaz S, Robins J. (2004). A structural approach to selection bias. *Epidemiology* **15** 615-625.

Hernandez-Diaz S, Schisterman E, Hernan M. (2006). The birthweight ‘paradox’ uncovered? *American Journal of Epidemiology* **164**(11), 1115-1120.

Robins JM, Smoller JW, Lunetta K. (2001). On the validity of the TDT

test in the presence of comorbidity and ascertainment bias. *Genetic Epidemiology* **21**(4), 326-36.

Pearl J. (1995). Causal Diagrams for Empirical Research. *Biometrika* **82**(4), 669-710.

Time varying exposures, Regression models

Hernan M, Brumback B, Robins J. (2000). Marginal structural models to estimate the causal effect of zidovudine on the survival of HIV-positive men. *Epidemiology*, **11**(5), 561-570.

Robins J, Hernan M, Brumback B. (2000). Marginal structural models and causal inference in epidemiology. *Epidemiology* **11**(5), 550-560.

Dynamic treatment strategies (beyond the scope of the course, but important)

Cain LE, Robins JM, Lanoy E, Logan R, Costagliola D, Hernan MA. (2010). When to start treatment? A systematic approach to the comparison of dynamic treatment regimes using observational data. *The International Journal of Biostatistics* 6, article 18.

Hernan MA, Lanoy E, Costagliola D, Robins J. (2006). Comparison of dynamic treatment regimes via inverse probability weighting. *Basic and Clinical Pharmacology and Toxicology*. 98: 237-242.

Orellana L, Rotnitzky A, Robins JM. (2010). Dynamic regime structural mean models for estimation of optimal dynamic treatment regimes, Part I: Main content. *The International Journal of Biostatistics* 6, article 7, 2010.

Sjölander A, Evans M, Bellocco R, Nyren O. Comparing different strategies for timing of dialysis initiation through inverse probability weighting. *American Journal of Epidemiology*. 174(10), 1204-1210.
